

PRE-APPROVAL PROCEDURE FOR PROCESSING ROOFING, SHINGLES & CONSTRUCTION DEBRIS MATERIALS AT THE LGD OF PINAWA LANDFILL SITE

Any Town of Lac du Bonnet Resident in breach of this policy on the “Authorization for Disposal Construction Debris at the Pinawa Landfill” will lose the privilege to use the Pinawa Landfill site. The Authorization form, which includes the Pre-approval Procedure, is subject to a site inspection. A form must be completed by the property owner and the person hauling on their behalf. The following procedure has been established for disposal of roofing, shingles, cement, burnt house debris and construction debris at the Pinawa Landfill site. These types of material cannot be disposed of in the Landfill site without pre-approval.

An “Authorization for Disposal of Construction Debris at the Pinawa Landfill Site” form can be obtained at the Town of Lac du Bonnet Office or printed off from the Town website at (www.lacdubonnet.com/town) for Town of Lac du Bonnet Residents ONLY. This form is required only when the resident is requesting disposal of roofing, shingles, cement, burnt house debris and construction debris. Please be advised that all approvals must be signed prior to any weekend disposals. Metal, wood, cement, shingles and drywall to be separated and disposed of in designated areas.

Burnt House Material, Construction Debris, Cement, Shingles/Roofing Debris:

The resident fully completes the Authorization form at the Town Office (345-8693).

The appropriate authority will visit the location where the material is origination from and confirm with the homeowner what type of debris and amount or volume is being disposed of. If the homeowner cannot confirm the roofing or shingles are from their residence OR if the appropriate authority is not satisfied that the material was generated from the residence, approval will not be authorized for disposal at the Pinawa Landfill site. Once approved, the homeowner or contractor shall have 72 hours to dispose of the approved debris.

The Landfill Site guard will be advised to allow the contractor to proceed with the disposal. The Landfill site guard will collect the signed papers and return to the LGD of Pinawa Office for filing.

The vehicle bringing the debris to the Landfill Site for disposal must stop at the Landfill Site guard station and provide them with the completed and signed Authorization for Disposal before proceeding to the designated spot. Homeowners/contractors will ensure that all material is separated into the designated area as directed at the site.
